TAKE ON THE PROS!

R.B.I. '93 puts you into the big leagues with nearly 700 **REAL** Major League Baseball Players from all 28 professional rosters, including Colorado and Florida.

Plus you'll face them on their own turf—from Chicago's friendly confines to the Big Green Monster in Boston.

So before you pick up a baseball game for your Genesis, make sure it's not one of those bush-league efforts with phony stadiums and fake player names taken from the local phone book.

It's easy, just look for **R.B.I. '93**... it's the only game in town.

KIRK GIBSON

Replay classic baseball moments with the **Game Breakers** module and rosters of every division champ since 1984

Begin by selecting from sixteen tough teams, each with their individual attributes. Names include Sixty Whiners, War Slammers and the Darkstar Dragons. The teams also have star players like Elvis, Snake and Mauler that have special skills above the rest of the players.

If you haven't had enough fun choosing your team, then you can pick from nineteen stadiums complete with hazards like pitfalls and land mines buried within. Choose wisely because the enemy can take advantage of these situations.

Time to play! Choose plays just like the Madden games and head onto the field for a real treat. Players can dive, punch, jump and kick opponents to reach the goal for the

touchdown! Beware of trick plays that can turn an entire team against the opposing coach! Although the setting is very futuristic, the game plays just like your typical football game. But if it's a change you're looking for, then MLE is the choice!

BILL WALSH COLLEGE FOOTBALL

CART SIZE	SYSTEM	AVAILABLE
8 MEG	GENESIS	JULY

For those who have been waiting for a good college football game, look no further! College Football from Electronic Arts takes the college level teams and stars them in their very own game.

Looking and playing a lot like The Madden Series, College Football puts the 48 best college football teams under your control.

A couple of options allow the

game to be tailored to your individual preferences. Modify the length of each quarter to play short games, the type of field you wish to play on, the weather conditions, and even the perspective to a home or visitor view!

Begin the game with the symbolic flip of the coin then let the games begin! The view switches to a vertically scrolling playing field for all

kick-offs and run-backs. Regular play involves picking plays and then executing them on the play field. The control scheme is very easy to use with simple joystick movements maneuvering the players on screen. For those really cool interceptions and touchdown plays, there is an instant replay feature with VCR type controls to frame advance, fast forward, or just replay the event again.

The play book is very expansive and occupies the entire screen. Eight plays are shown at a time with more easily accessible by scrolling the pages. Execute those passing or

running plays with precision but avoid getting intercepted. Practice the spin technique to break away from possible tackles and other embarrassing moments.

A good college football game was long overdue and EA jumped on the opportunity! With one or two player capability, plenty of action, and tons of teams to use, you won't be disappointed with College Football.
